PRIMARY EXAMINER**

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance. The prior art made of record in the attached form PTO-892 considered to be pertinent to the submitted application.

Vial US # 4,772,808 discloses a control device for electrical appliances, including a motor and changeover switch having selectively operated components for controlling the power supply to the appliance motor or to terminate the power supply thereto. Also braking of the single phase motor when power is terminated and to provide an indication of overcurrent in the motor.

Tamura et al. US # 4,405,887 disclose a drive circuit for a wiper device, wherein the switching means is operative to switch the direction of electric current supplied to an electric motor when the detecting means detects the end of the wiping motion.

However, none of the prior art teaches or suggests claimed limitations in combination with:

- A coil in parallel with the motor and in series with the relay switch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
